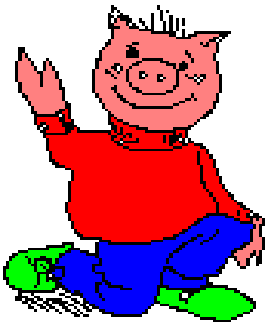
PIG



The first player rolls the dice as many times as he/she likes, adding up the total as he/she goes.
If, however, a 1 is thrown, all the score for that round is lost.
The player may stop at any time and put his/her score in the bank - that banked score can not be lost.
When a score has been banked the die is passed to the next player who has his/her turn.

The winner is the first player to reach 50 or more.

Player 1	
Banked score	Running total

Player 2	
Banked score	Running total
