This is a fall since last year (62%, 8 ppl). 72% are happy to regularly donate to help provide enrichment to their child and other pupils.

Positive Comments	Concerns Comments to Consider
<ul style="list-style-type: none"> Engaging with the local community but also Wandsworth as a whole. The many trips the children undertake each academic year. Swimming!! Assemblies!! The PTFA!! Vocal Project!! The senior roles for children (Eco-Warriors, Well-Being Ambassadors, etc.). The way in that the curriculum is embedded in all the activities and including enrichment (e.g., English showcased in assemblies). Some of the teachers are highly experienced and know how to bring the most out of the children. The diversity of teaching methods is impressive. Strong focus on independency and self-awareness. Nothing. You are all doing an amazing job. My son is lucky to be at your school. 	<ul style="list-style-type: none"> Improve communication between the parents and the teachers. Improve communication between leadership and parents - this is very limited Put more efforts in to term reports, these numbers say very little. Challenging the kids who do well academically and socially. Kids who need support have early birds, the school is very inclusive, which is amazing, but nothing seem to be done for kids who do well? Hopefully the school will get its outstanding back from Ofsted. Address SEND needs better. I’m aware resources are limited; however, they should be heavily invested in this area as everyone can benefit. Act on time when children are bullied, educate teachers on emotional support and making children feel safe Everything. Change the leadership
